Key Insights from Our Nationwide Farmer Data

High-yield crops, strategic states, experienced cooperative farmers, and key environmental factors reveal where productivity and investment thrive offering a clear roadmap for scaling agricultural success in Nigeria.

Experienced farmers (+16 years) who are cooperative members show higher revenue and receive more investment, underlining the need to scale farmer training and group participation.

HIGH YIELD CROPS

Sweet potato, sesame, rubber, cashew, and banana

States like Bayelsa, Borno, FCT, Gombe, and Kebbi are leading in agricultural investment and revenue, signaling regions with scalable success models.
